

OneTuch

We specialize in logistics and transportation solutions, offering supply chain planning, eco-friendly trip coordination, and reliable goods transport via trucks, ships, airplanes, and trains. Our services include medical emergency support with real-time updates, slot booking, and integrated blood donor functionality. This custom website features seamless slot booking and review options, ensuring efficiency and sustainability. We also provide tailored solutions to meet unique client needs.

Skills and deliverables:- .Net, Angular

OUR SERVICES

Our services play a critical role in ensuring efficient and timely delivery of products from suppliers to customers.

SERVICES

Our services encompass a wide range of activities involved in the planning, coordination, and execution of the movement and storage of goods, materials, and information throughout the supply chain.

TRIP

This practice aims to reduce traffic congestion, lower carbon emissions, and save costs by sharing fuel and transportation expenses among the passengers.

TRANSPORT

This involves the movement of goods from one location to another using various transportation modes such as trucks, ships, airplanes, and trains.

CATEGORY

The list covers a diverse range of industries and businesses, each specializing in specific goods or services to cater to different needs and preferences of customers.
