

Scan Restaurant menu  
Qrcode and review

## ABOUT SNAPDISH

Snapdish is an innovative application designed to revolutionize the dining experience by seamlessly integrating technology with user feedback. By allowing users to scan QR codes placed on restaurant tables, menus, or food items, the application facilitates efficient and instant reviews of the dining experience, specifically focusing on the quality of food items.

- ✓ QR code scanning
- ✓ Food items rating
- ✓ Review submission
- ✓ Interactive interface
