

Quick AlgoPlus

Quick AlgoPlus is a dynamic platform for market insights, real-time share prices, and order management. Features include Market View for updates, seamless Order Management, Broker Integration, and advanced Signals for decisions. Market Tools offer analysis and strategy optimization, while API Documentation ensures easy integration. The Strategy View enables traders to design and test trading strategies, making Quick AlgoPlus a comprehensive, efficient trading solution.

Skills and deliverables :- .Net,Angular, SignalR and AngularJS
